<401r>

Particular of the charges of repairing and fitting up the Irish Mint for a coynage of Copper.

The Carpenters Estimate for work to be done about the

over the Blanching rooms or nealing furnace.	£	21.	8
Ditto for work to be done in the inside of said rooms	}	19.	17.
Ditto for worke to be done about the roof of the stables	}	19.	10.
The Bricklayer;s Estimate for Tyling over the Blanching rooms & nealing furnaces	}	34.	--
Ditto for work over the stables		16.	--
Glasing work		20.	--
Plasterer about		5.	--
Mason's Work in the Blanching rooms & furnaces.		10.	--
	£	145.	15.-

The charges of making the furnaces are to be computed by the founder himself who carryes these papers.

NB. our carpenter has made a Mould and screws for a pattern, which is very neat, and better then any we had before, and demands for is 15{s} a piece.

There will be mason's work requisite in the melting house when the pipes are laid, and for paving part of the said melting house which I compute at about £7. -. -

The Moneys have formerly given you an Account of Tools and Engins necessary, as mills, cutters, rowlers, culanders, flatting tools, & presses.
