<17r>

Ian 6. 170 $\frac{3}{4}$

May it please your Lordship

The Warden & Comptroller of the Mint having sometimes exprest a desire that the charge of her Majestys Tinn should be in the board of the Mint, with a common Treasurer or Receiver under them, & the Assaymaster having very much desired some imployment about the Tinn & being of the board for things below stairs: I humbly beg leave to lay their desires before your Lordship, & to signify that when your Lordship shall resume the consideration of lodging the Tinn in the Tower I am ready to serve her Majesty in such a manner as your Lordship in your great wisdom shall think fit. I am with all submission

My Lord

Your Lordships most humble

and most obedient servant

Is. Newton.
