## Charges of receiving melting & standarding the Plate

	s	d
1 Recompence per ounce $2^d$ , per pound $2^s$	2.	0
2 Worsness at a middle rate the last $6\frac{1}{2}^{dwt}$ , this year now the unmarkt plate which is worst is excluded & received at its just value $6^{dwt}$	}	1. $6\frac{1}{2}$
5 Refining the coarsest to bring the rest to standard	0.	3
3 Melting including servants wages $\frac{3}{4}^d$ . Pots, tongues, Ingot moulds &c $\frac{1}{4}$	}	0. 1
4 Wast including the consideration of the sweep & making it up	}	0. $2\frac{3}{4}$
	4.	$1\frac{1}{4}$

For Interest, care & hazzard they demand  $1^s$  per pound & for housrent servants & suchlike incidents  $1^d\frac{1}{2}$  which makes the whole  $5^s. 2^d\frac{1}{2}\frac{1}{4}$
