

"Report of Sir Isaac Newton upon Mr Girard's bill for Engraving a Seal for the Bahama Islands"

Author: Isaac Newton

Source: T 1/248.37, National Archives, Kew, Richmond, Surrey, UK

<154r>

To the Right Honourable the Lords Commissioners of his Majesties Treasury.

May it please your Lordships

In obedience to your Lordships Order of Reference of 25 Iune concerning a new double silver seale made by M^r James Girard for his Majesties Bahama Islands in America, we have perused his Majesties Warrant for making the same & also the certificate of the delivery pursuant thereto, & find that it was made according to the directions of the said Warrant & sent to the Governour of the said Islands. And by an impression taken from it before it was sent & kept in the Mint, we find that the work was very good. It was weighed in the Mint before it was sent, & there found of the weight expressed in M^r Gerards Bill, & the price of the silver & work is reasonable in proportion to the prizes heretofore allowed for seales of the like sizes.

All which is most humbly submitted to your Lordships great

wisdome
